

Need Money to Upgrade Your Fleet and Equipment?

Funding is Available!

The Texas Emissions Reduction Program (TERP) provides monetary incentives for projects to improve air quality in the state's non-attainment areas.

If you are thinking about purchasing a new vehicle, replacing an old vehicle or a piece of heavy-duty equipment, or minimizing pollution from your business and construction activities, financial assistance may be available.

Eligible Activities Include:

- Lease or purchase of new vehicles/equipment,
- Replacement of vehicles/equipment,
- Repower of vehicles/equipment,
- Installation of refueling infrastructure,
- Retrofits or add-ons of emissions-reduction technology,
- On-site electrification and idling reduction infrastructure,
- On Vehicle electrification and idling infrastructure
- Rail relocation and improvements,
- Use of qualifying fuels, and
- Demonstration of new technology.
